

Workshop on Data Mining and Computational Intelligence

資料探勘與智慧計算

Call for Papers

The 2019 Workshop on Data Mining and Computational Intelligence in conjunction with NCS (National Computer Symposium) 2019 will be held at National Quemoy University, Kinmen, Taiwan, from November 14-15, 2019. The main focus of the workshop provides a platform for researchers from both academic and industry for exchanging scientific results and experiences, as well as sharing new discoveries in the broad area of data mining and computational intelligence.

Topics of Interest

Authors are invited to submit contributions including, but not limited to, the following areas:

- Data and knowledge representation
- Data mining algorithms and applications
- Mining spatial and temporal data
- Big data science
- Big data applications
- Big data and computational intelligence in decision support
- Big data trends and challenges
- Computational intelligence
- Applications, research projects and Web intelligence
- Recent trends in information technology

Important Dates

Full paper submissions due: September 8, 2019

Notification to authors: October 2, 2019

Final versions due: October 8, 2019

Conference dates: November 14-15, 2019
