

## Workshop on Programming Languages and Software Engineering (程式語言與軟體工程)

### Call for Papers

The 2019 Workshop on Mobile Computing and Wireless Communications in conjunction with NCS (National Computer Symposium) 2019 will be held at National Quemoy University, Kinmen, Taiwan, from November 14-15, 2019. The main focus of the workshop will be on the novel proposal of techniques for Programming Languages and Software Engineering intends to provide a forum for researchers, educators, and professionals to exchange their discoveries and practices. The workshop also explores future trends and applications in these areas and other related areas. Your Participation at the workshop would be an excellent opportunity for you to meet other researchers and to discuss the technology advancements.

The topics to be covered include, but are not limited to:

Interaction of compilers with underlying system

Novel programming models

Memory management

Semantic methods of program analysis

Service oriented architecture

Agent oriented software engineering

Requirement engineering

System analysis and design

Software process

Software reuse

Software reliability

Software testing and evaluation
